

Souverän® 800 Black-Red

The Souverän 800 Black-Red is a timeless classic. The rich red tone in the striped pattern of the barrel harmonizes wonderfully with the elegant deep black components and is perfectly complemented by the golden trimmings. This classic has now returned to Pelikan's standard product range.

The black and red striped barrel is made of cellulose acetate in an elaborate process. The rings and clip are finished with 24-carat gold. The bicolor 18-carat gold nib is available in a variety of EF, F, M and B nib widths. As a counterpart to the piston fountain pen, there is a matching ballpoint pen with twist mechanism in the range. Every single writing instrument is assembled by hand and checked with the utmost care to meet the strict quality criteria.

As a color-matching complement to the noble piston fountain pen, we would like to recommend the Edelstein Ink Garnet.

The Souverän 800 Black-Red will be available in the standard assortment from mid of March 2022.
